## Pensions and Actuarial Due Diligence Provider of the Year

Punter Southall Transaction Services (PSTS) are happy to announce that they have just been awarded the ACQ Finance Magazine Pensions and Actuarial Due Diligence Provider of the Year award.

Receiving this award is a timely recognition for the hard work put in by the team during 2007 which culminated in a great year for PSTS.

Whilst we continued to generate a wide range of new projects and opportunities within our existing client base we were also appointed to a large number of new clients during the year. We acted for an additional eight private equity firms during the year and further developed our existing relationships through a seminar programme and other educational sessions. The credit crunch has ultimately affected all companies this year and as a result we have seen a reduced flow of new deals with a definite focus on smaller deals so far this year.

In conjunction with our private equity clients we have taken advantage of this temporary hiatus in the market to focus on the existing portfolios of our clients to stabilise and improve the pensions positions in their investments with an eye towards eventual exit. We are very much looking forward to another varied and exciting year utilising our thought leadership approach to drive forward further successes of PSTS during 2008.
